

## Bush Disciples online worship instructions

It's not uncommon for people in the bush when receiving video streaming for it to stall or drop-out. If this is happening to you, downloading the Online service prior to watching it will fix this issue.

Once downloaded, the video is a 'local file', and won't be dependant upon internet. If your internet is slow, you can download it the night before.

Don't forget to **delete the file after watching. Music Copyright forbids maintaining these files.** They will also take up a lot of room on your computer if you let them accumulate

### Downloading the .mp4 Service from [www.bushdisciples.church](http://www.bushdisciples.church)
